# DIALAB®

## More than 50 Years of Experience

DIALAB® GmbH was founded in 1972.

The company with its headquarter located south of Vienna in Wiener Neudorf, Austria, is a manufacturer and distributor of Diagnostics and Laboratory Equipment.

We dedicate ourselves exclusively to supporting the clinical laboratory and supplying a complete range of products. Including five subsidiaries located in China, the Czech Republic, Hungary and Serbia we are a total of over 120 employees.

## Active Around the Globe

We are engaged in business relations worldwide. Presently, DIALAB® supplies its wide product range to more than 100 countries around the world.

## Quality

We maintain a quality management system certified according to ISO 13485:2016. The majority of products are CE marked according to Directive 98/79/EC or Regulation (EU) 2017/746 (class A).

## OEM/Bulk

We offer different options for our OEM partners. Generally, DIALAB® can provide reagents in bulk, customised kits, labelled and unlabelled vials.

## Product Training

We offer training programs in our headquarter in Wiener Neudorf in order to support our customers.

## Customer Service, Orders and Pricing

Contact your DIALAB® Distributor or contact us directly at:

**E-mail:** [office@dialab.at](mailto:office@dialab.at)  
**Website:** [www.dialab.at](http://www.dialab.at)  
**Phone:** +43-2236-660910-0  
**Fax:** +43-2236-660910-30/31

## Warranty

DIALAB® shall warrant that products perform according to the procedures described in the instruction inserts/manuals accompanying the products. Changes or modifications of the products may adversely affect the stated performances. DIALAB® shall not be liable for any damages arising out of incorrect use of the products.

# HAEMATOLOGY

## General Features for DLB5 and DLB3

- Results in 50 seconds (3-diff) or 80 seconds (5-diff)
- For venous and capillary blood
- Only 10 – 30 µL blood volume
- No warm-up, temperature independent
- Colour display
- Printer: DLB5 internal, DLB3 external (not included)
- Connection to external computer, keyboard and barcode reader
- 5-diff: 4 reagents plus Rinse, 3-diff: 3 reagents plus Rinse
- Blood Clot Micro Filter
- Unique preservation solution » no frequent rinsing
- Electromagnetic valves » less service needed
- Cleaning every 3 months only
- Service once a year
- Languages: German, English, French (Spanish on request)
- Veterinary instrument: 6 species by default, 2 species freely selectable

---

Flow-cell or cuvette mode

---

Endpoint and kinetic tests

---

Internal thermal printer

---

Photometer with rotating filter wheel

---

7 standard filters: 340, 405, 450, 500, 546, 578, 670 nm

---

1 free slot for optional filters

---

Up to 130 methods programmable

---

30  $\mu$ L flow-cell

---

Tungsten halogen lamp

---

7" color LCD display

---

CE marked

---

# INSTRUMENTS

## Autolyser 100

---

Fully automated chemistry analyser

---

Throughput: Up to 100 tests/hr

---

Stand alone device with built-in computer (touchscreen)

---

Photometer with rotating filter wheel

---

8 standard filters: 340, 405, 450, 510, 546, 578, 630, 670 nm

---

Tungsten halogen lamp

---

Disposable reaction cuvettes

---

Reagent cooling: No

---

No. of sampling arms: 1 + 1 mixing arm

---

Barcode readers for sample and reagents: not included

---

Water & Waste: external containers

---

CE marked

## Autolyser

---

Fully automated chemistry analyser

---

Optional ISE (indirect): Na<sup>+</sup>, Cl<sup>-</sup>, K, Co<sub>2</sub>

---

Throughput chemistry only: up to 250 tests/hr

---

Throughput with ISE: up to 220 tests/hr

---

Operated by external PC (PC not included)

---

Static photometer with 10 WL (340 - 700 nm)

---

Optical glass cuvettes with washing system

---

Reagent cooling: Yes

---

No. of sampling arms: 1

---

Barcode readers for samples and reagents: optional

---

Water & Waste: external containers

---

CE marked

## Autolyser 450

---

Fully automated chemistry analyser

---

Optional ISE (indirect): Na<sup>+</sup>, Cl<sup>-</sup>, K, Co<sub>2</sub>

---

Throughput chemistry only: up to 450 tests/hr

---

Throughput with ISE: up to 690 tests/hr

---

Operated by external PC (PC not included)

---

Static photometer (no filter wheel)

---

14 filters: 340, 380, 405, 436, 478, 510, 546, 578, 600, 630, 660, 700, 740, 800 nm

---

Optical glass cuvettes with washing system

---

Reagent cooling: Yes

---

No. of sampling arms: 3

---

Barcode readers for samples and reagents: included

---

Water & Waste: external containers

---

CE marked

# INSTRUMENTS

## DIAREader ELX800G

---

**Semiautomatic ELISA reader**

---

**8 reading channels**

---

**8 positions filter wheel**

---

**Measuring range from 400 – 750 nm**

---

**Touchscreen**

---

**Internal printer**

---

**CE marked**

---

## DIAWasher ELX50/8

---

**Semiautomatic ELISA washer**

---

**For washing single strips or full plates**

---

**Up to 100 washer programs storable**

---

**Wash, prime, rinse and aspiration programs**

---

**Shaking function**

---

**Liquid level alarm**

---

**CE marked**

---

# INSTRUMENTS

## DIACheck® C1

- 1 channel coagulometer
- Fully optical measurement (620 nm)
- Clotting, NOAC and immunoturbidimetric assays
- Microvolumes (totally 75 µL)
- External printer optional
- Autostart
- Up to 3 calibrations points
- CE marked

## DIACheck® C2 | C4

- 2 channel / 4 channel coagulometer
- Fully optical measurement (405 nm)
- Clotting, chromogenic, NOAC and immunoturbidimetric assays
- Microvolumes (totally 75 µL)
- External printer optional
- Autostart
- Up to 5 calibration points
- CE marked

## CoaLyser

- Fully automated Coagulation Analyser
- Throughput: 137 PT/h, 60 APTT/h
- Measuring volume: min. 150 µL
- Colour touch screen
- Up to 50 methods programmable
- STAT and QC program
- CE marked

# INSTRUMENTS

## Urine Strip Reader 40

- Throughput: 60 tests/h
- Closed system with barcode
- Data memory: 2000 patient results
- Built-in thermal printer
- For all urine strips except 1 parameter & 10ME
- CE marked

## Urine Strip Analyser 500

- Throughput: 500 tests/h
- Large touch screen
- Closed system with barcode
- Data memory: 2000 patient results
- Built-in thermal printer
- For all urine strips except 1 parameter & 10ME
- CE marked
