## Features & Benefits

- Quantitative determination of serum proteins
- Immunological agglutination method
- Manual or automated application
- Liquid stable reagents, calibrators and controls
- Long shelf life up to 5 years
- High sensitivity and specificity
- Wide measuring range
- No Hook Effect
- Calibration stability up to 3 months
- Special 5+1 product line for easy application

## OEM / Bulk

DIALAB® offers different OEM capabilities:

- Bulk: Buffer as powder or liquid + Reagent
- Customised kit sizes
- Unlabelled vials (without box and without labels)

Specially customised OEM offers are possible on request.
